Wednesday afternoon, October 13. Following the display of weakness yesterday Liverpool today went off nore, reflecting the gloominess of celing in the Manchester district and of anything in news from this to suggest the wisdom of taking the buying side. This was one of the chief occasions for weakness on this side during the forenoon, helped by excellent weather over the entire belt and no signs yet of chang in the general business outlook. The efforts to get help for holding for better prices were apparently having some effect, but enough of the actual was for sale to satisfy all require-

ments and more. The result being further reduction in quotathems. ideal weather continues and the weekly summary fulfilled all bearish expectations, but the map showed baris for expecting breaking up of the Indian summer spell in a few days, with possibly some rains, which at this time of the year will likely be followed by colder. This feature encouraged a degree of hesitancy on the selling side, but failed to stimu-At the close futures in New York

up tomorrow morning.
In the foreign market finals today were 37 to 25 points off, which made the reduction in parities compared with American markets more than was reflected by changes over here. Private cables said the weakness in silver helped account for yesterday's easiness, but today the metal was up nearly three pence, so it must have been something else that induced the heavy liquidation. Spots were off 80 points, fully middling to 17.77d, with sales only 3,000 bales, including 2,800 American, and receipts were but 300

off moderately, but some sell ing for foreign account and by pro-fessional and hedgers sent the list downward, December dipping to 20.5 fter selling as high as 20.48 carite There did not seem any aggressive pressure, but support was limited although in the afternoon some littie absorption by trade interests turned the tide slightly upward.

From the spot department came lit that was encouraging. Texasints made little change in quotations, Houston leaving middling at 21c, with sales of 8.458 bales, while Dallas and Fort Worth reduced it is points, midding to 20,50c and sold 5,743 and 2,850 bales each. New Orleans cut prices 50 points on lower and 75 on better grades, middling to 20.75c, and sold 2.293 bales. Augusta reduced middling 100 points to 21,25c and sold only 166 bales. Memphis did light business, reporting 900 bales for yesterday and today, quotations being reduced 50 points, middling to 22c.

NEW YORK COTTON.

NEW YORK, Oct 13—A new low level of prices was established in the cotton market here today. Liverpood showed declines over the local holiday while reports from the goods trade were unfavorable and the weather in the South continued favorable for picking and maturing the crop. These features led to a good deal of local and Wall street selling, while there was heavy hedge selling by the South and after opening easy at a decline of 16 to 47 points, active menths shawed net losses of about 30 to 47 points, with Odtcher selling at 2150c. Dec. at 20 35c and Jah. at 19 75c. Both local and Southern spot houses were good buvers at the decline and there was considerable realizing on old short lines which absorbed offerings and caused moderate railies.

The market was under continued in ressure bater. Liverpood the South Southerness and Liverpood the Southernessure later.

moderate railies.

The market was under continued pressure later. Liverpool, the South and local operators being active self-ers. Trade interests bought on a scale down, but otherwise about the only support represented profit taking on old short lines, and if anything the selling became more active after the publication of the favorable weekly weather report. All active months made new low ground with December selling at 20.05c and January at 19.45c with the general market showing not declines of about 50 to 75 points.
